## WORK HISTORY

**Land Administration Analyst Intern,**  
**Equinor US Operations LLC**

May 2019 - August 2019  
Houston, TX

- Spearheaded a Hybrid Robotic Process Automation for the collation, research and creation of Unsatisfied Title Requirement Letters, Probate Letters and Address Verification Letters; a process that would save about \$320,000/year
- Drafted UTR, Probate, and AV Letters to owner's explaining Suspense Reasons, Title Requirements & Curatives, and the next course of action; these letters incited response that led to release of 53 suspended accounts as of the end of my stay
- Resolved all the owners in the LSSL for death across all 3 major assets where Equinor has operations (Bakken, EagleFord and Appalachia). These were ~400 owners within a span of 2 months
- Supported the team responsible for the annual escheat process for about \$1,500,000 in suspense funds by analyzing account history and recommending whether or not to escheat funds to the states of residence and sending out Due Diligence Letters

## Tutor & Mentor

September 2017 - Current

**SOAR - University Learning Center**

- Developed a step-by-step technique for "Intro to Math Analysis" to guide students to independence; my students generally stop requiring assistance on a topic after the first hour
- Took the initiative to suggest group-tutoring as a solution to inefficient student-tutor assignment
- Maintained students' growth and documented recommendations, reports that outline and document the academic progress and future needs of individual students and assist in monitoring their progress

**SDS - University Techniques Center**

- Hired into the most competitive job on campus for my track record at the Learning Center
- Supported students with documented evidence of learning disabilities, such as ADD/ADHD, and Autism Spectrum Disorder
- Developed critical thinking and problem-solving skills by reviewing student diagnosis, recommendation and history, then devising the best method of learning to utilize in tutoring them
